##### i. Ramps/ Wheel chairs/Support railing:

Yes, our college has a ramp facility to support easy and safe movement for students, staff, and visitors with mobility needs. The ramp is designed to ensure smooth access to important areas of the campus, promoting inclusivity and convenience. It helps individuals using wheelchairs or those who require additional support to move comfortably without barriers. By providing this accessible infrastructure, the college ensures a welcoming and supportive environment for everyone, emphasizing equal access to all facilities.

## ii. Separate Washrooms

Our college does not have separate washrooms specifically designated for students with special needs; however, all washrooms are located on the ground floor, making them easily accessible for everyone. Their convenient location allows students with mobility challenges to use the facilities without difficulty. The wide entrances and open layout further support comfortable movement. Also, the accessible ground-floor placement ensures that all students can use the washrooms safely and without any barriers.
